# Chapter 1. <CHAPTER TITLE>

## 1.1. <SECTION TITLE>

Section Info Here

*Listing 1. Example Code box for CLI*

```
[student@workstation ~]$ sudo yum module install container-tools
```

*Listing 2. Example Code box for YAML*

```
---
- name: Deploy HTTPD Server Demo
  hosts: server
  collections:

  tasks:

## Start and Run the HTTPD Container
- name: Start the Apache Container
  podman_container:
```

*Example 1. LAB/Exercise: Hands-On Activity Example*

1. Download a container image.
  - a. Registry: **registry.access.redhat.com**
  - b. Image: **ubi7**
2. Run the container

### 1.1.1. <Section\_Sub\_Intro\_Here>

I am an image. Image directory in the chapter files is a symbolic link to the main "images" directory.
